Asset Management

Get the Most ROI From Your Maximo Solution

Enhance and Extend Maximo's Capabilities

Real Performance Improvements Across all Classes of Assets

When Assets are Mission-Critical

Maximo provides real performance improvements across all classes of assets, including production equipment, facilities, fleets, and IT infrastructure. With Maximo Certified resources on staff, The Createch Group offers the greatest depth and breadth of Maximo technical and consulting expertise available. From implementation consulting, MEA integration, data migration to workflow optimization, The Createch Group has what it takes to make your Maximo implementation a success.

Whether you're starting a new implementation, upgrading to a newer release, integrating to an enterprise system, or looking to develop a new report, The Createch Group Professional Services can help.

Services for Maximo

- Maximo Enterprise Adapter (MEA) Services
- Actuate Report Development
- Customization Services
- Upgrade Services (4.X to 5.X and/or MXES(6))
- Implementation Consulting Services
- Training Services
- Workflow Services

Maximo Add-On Products

- Workflow Approval

MAXIMO TRAINING

The Createch Group provides Maximo training using standard MRO courseware material. Training is available at either our training facilities or at your site. We can also provide customized Maximo training to meet your specific needs.

"In cases where we need to augment our own services staff, we turn to The Createch Group because of their proven expertise in Maximo 5. They have qualified, Maximo-certified professionals who can manage a range of services including implementation consulting, Actuation of report development, integration to enterprise systems, and data migration."
