CHALLENGES:

- Implement the payroll module integrated to the financial modules of J.D. Edwards EnterpriseOne for the Farm Supply Division to replace a legacy application for payroll that was difficult to support and maintain.
- Low data integrity of employee information.
- Enable cost savings through increased efficiency and optimized payroll system and processes.

SOLUTIONS AND RESULTS:

- System equipped to support strategy of Human Resource department.
- Eliminated parallel systems and redundancy, improving productivity and quality of information.
- Simplified the financial structure to 20 business units down from 65.
- Increased the automation of cost allocation to the different business units.
