3,000 employees
\$800M annual revenue

From the very beginning Gildan chose to create the perfect core basic apparel, delivering superior quality, premium features and the industry's greatest value.

1831 Broad Knitted Fabric Industry
1992 Contract Textile Dyeing and Finishing Industry

ORACLE PARTNER

CHALLENGES:

- Implement the manufacturing, cost accounting, procurement, and inventory modules of World software in the manufacturing sites across North and Central America.
- Implement automated data collection for inventory and manufacturing operation tracking.

SOLUTIONS AND RESULTS:

- Provided much needed visibility into manufacturing and product costing.
- A single data repository to eliminate redundant data entry, improving productivity and data accuracy.
- Created a scalable application and technology infrastructure to accommodate growth and ease of roll-out in various sites across America.
