**ORACLE** PARTNER

## CHALLENGES:

- Internally developed applications were difficult to maintain and imposed important limits on operations and the company's growth.
- Integrated planning tool was non-existent
- Limited batch management.
- Doubtful data integrity.
- Complicated accessibility to data and analyzes.

## SOLUTIONS AND RESULTS:

- JDE makes it possible to support the management strategy of the sales team's evolutionary pricing.
- Purchases management in an multi-currencies and multi-companies environment.
- Elimination of parallel systems to improve productivity and quality of the data.
- Allowed to support the company's growth and remain competitive in the distribution of food and pharmaceutical products.
